SIZE GUIDELINES The bleed should be added as described in the next section when creating the initial design. Then, the designer should make sure all content is within the trim size, to avoid important content from being cut off. The final file submitted should match the dimensions under the "Bleed" column in the chart. Please be sure to leave 1/4" to 3/8" safety margin between the trim line and all live content.

GENERAL GUIDELINES *Opportunity Zone Magazine* asks that you closely follow our production guidelines so that we can provide both advertisers and readers with the best possible service. *Opportunity Zone Magazine* is not responsible for errors caused by improperly prepared files. It is strongly recommended that you preflight and check your files prior to submission using industry standard preflighting software. Ensure that all images are a minimum of 300 dpi at 100% of placement size.

COLORS All artwork must be CMYK or grayscale mode. Do not submit files in RGB, or files containing additional channels. Color proofs requested if sending art on disc. We cannot guarantee exact color matching.
